Product description:

Grooving accessory

Features

- Easy to handle, light, and robust machine for easy pipe grooving up to 6" (sch 10) and 3" (sch 40).
- Grooving depth is easily adjusted for each pipe size, different rolls being provided as a function of the size of the pipe to be grooved.
- Basic sets with capacity 2"-6" SCH 10. Optional sets of rolls 1" and sets of rolls 1.1/4" and 1.1/2"
- Highly versatile thanks to the various accessories provided, it may be used jointly with threading machines of different brands such as SUPER-EGO, ROTHENBERGER, RIDGID and with our SUPERTRONIC® threader and a variety of stands (work bench 464, and any bench vise) Always keep the bender clean and protected from aggressive environments.
